

WALLPLATE Plate 5 COPPER

WALLPLATE plates are a range of high thickness aluminium alloy containers, with the quality standards of industrial products.

The product is complete with adapter for two-module recessed boxes, sealing gaskets and the natural surface finish gives an aesthetic value typical of industrial components.

TECHNICAL SPECIFICATIONS

Standard	IEC/EN 602208 IEC/EN 60670-1
Material	Aluminum alloy
Treatment	Copper plated aluminum (protective treatment on request)
Protection grade IP	IP20 - IP35
Impact resistance	IK10
Isolation class	I
Storage temperature	-50°C - +90°C
Operating temperature	-40°C - +90°C

PQF5-Copper

Dimensions (mm)
92x184x23

Modules not included

Recommended support: VIMAR - cod. 20609
Support 5M

Recommended support: VIMAR Arké - cod. 19913
Support 3M
