

DOTBOX Light Dot GRAPHITE - OPAL lens

Dotbox, the "focal point" of visible implants. Designed for both modern and historic environments, it is a versatile product capable of integrating sockets, switches and can also become a luminous body, thus offering the freedom to express your creativity and tracing new constellations. The DOTBOX system is an aluminum alloy product obtained by die-casting with IP40 grade of protection. Along the perimeter it is possible to make up to eight punctures, with increments of 45°, following the traces of the mask supplied. In the Light Dot configuration the system becomes a ceiling light with the possibility of being integrated into the system or used as a light point.

TECHNICAL SPECIFICATIONS

Standard	IEC/EN 602208 IEC/EN 60670-1	
Material	Aluminum alloy Opal lens in borosilicate glass	
Treatment	High hard anodizing thickness (protective treatment on request)	
Protection grade IP	IP40	
Impact resistance	IK08	
Isolation class	ı	
Hole fitting*	Ø 26 to drill for Ø 22 tube	
Storage temperature	-50°C - +90°C	
Operating temperature	-40°C - +90°C	
Bulb fitting	GX53 LED Module

LDGF-Graphite

Ø 135 - H 58

LED MODULE Ø70

Constant voltage LED board, 24Vdc
Max power 21.5W
Max lumen 2957 lm
Dimmable with standard power supply with Dali, Triac,
Push, 0-10V, 1-10V technology
Suitable for micro push connectors for snap-in fixing of cables. Not self dissipated
